| Heart Vessel Defects | 0.94 | 1.11 | -0.17 | Retained Testicles | 1.09 | 1.89 | -0.80 |
| Hemangiosarcoma | 4.22 | 2.70 | 1.52 | Umbilical Hernia | 2.19 | 1.98 | 0.21 |
| Hereditary Cobalamin Malabsorbtion * | NKB | 0.28 | -0.28 | Yellow * | NKB | 0.21 | -0.21 |

* DNA screening tests should be run on any breeding animal with a score of 2.5 or more. NKB (no known background) in the score column indicates either we have no data on this trait in this dog's pedigree OR the dog or its parents may have DNA tested clear where applicable. Refer to owner for documentation of DNA testing.
